

One **API** Marketplace

Enterprise-grade, white labelled product to efficiently publish, consume, collaborate and govern all your APIs, developers, product owners, consumers and partners.

API

Introducing One **API** Marketplace

Enterprise-grade, white labelled product to efficiently publish, consume, collaborate and govern all your APIs, developers, product owners, consumers and partners.

Enterprises are creating 1000s of APIs today. Your API ecosystem needs to evolve to manage the complexities of usage and consumption, collaboration, management, documentation, and publishing of 1000s of APIs, and management of 1000s of users and developers.

One APIMarketplace solves the problem. It is API platform agnostic and seamlessly connects your APIs, developers, product owners, consumers and partners to accelerate innovation and deliver API ecosystem experiences like never before.

One **API** Marketplace Key Highlights

White-labelled, API platform & Cloud Agnostic

Leverage a pre-built, enterprise-grade marketplace that is compatible with your existing API Gateways across multiple clouds

Build a Vibrant App-API Ecosystem

Control and deliver a seamless API ecosystem experience by unifying various API consumers

Connect External Partners & Consumers

Extend your internal enterprise API ecosystem effortlessly to your external API ecosystem to easily find, connect and manage their APIs

Strong API Governance

Efficiently manage and streamline adoption, access, audit, analytics and deployment across your internal and external API ecosystem

Enhanced Developer Experience and Efficiency

Easily customize and optimize your developer journey. Increase App-API collaboration and efficiency by offering one unified solution for your API ecosystem

What you get with One **API**Marketplace

Enterprise-grade Portal

A world class, pre-built developer portal that can be customized to your brand needs faster. A secure and flexible portal that comes with great onboarding, discoverability, stakeholder management and documentation.

Suite of Connectors

Got different API types across multiple gateways? Working with multiple or hybrid cloud setup? One APIMarketplace has you covered. Suite of connectors built for leading gateways to help you innovate with minimal investments.

Pre-built workflows & Accelerators

Leverage a host of workflows from onboarding, registration, code review and submission, monetization to support. These meticulously crafted accelerators and frameworks get your programs up and running in no time.

Easy Content Localization

Maintaining separate localized portals in different languages across the globe can never be a problem anymore. One APIMarketplace ensures local language delivery with consistent developer experience across the board.

API Commerce & Monetization

Highest flexibility in offering API packages and rate plans. Enterprises can now bundle plans, manage catalogues, subscriptions and monetize APIs with ease. One APIMarketplace leverages Apigee Monetization and App Monetization through full commerce module integration.

Pre-built Industry Specific Core APIs

Enterprises can now take advantage of core industry-specific APIs to meet their digital needs. With over 500+ core banking APIs, Open Banking and PSD2 APIs, and Healthcare Interoperability APIs, One APIMarketplace has you covered to meet your industry regulation standards and compliance.
